PREFACE

The Imagine Symbols Collection arose from a need in the field of assistive technology (AT) for a contemporary alternative communication symbol set that could be used by teens and adults for everyday communication. The project was initiated by a consortium of four independent companies: the Attainment Company, Inc., the Great Talking Box Company, Madentec Ltd., and Saltillo Corporation. The symbol set is now available for download at no charge for individual, noncommercial use at *www.ImagineSymbols.com*.

Symbol Development and Use

Creating the symbols began by reviewing AT research on symbols, icons, and vocabulary. Words were selected from lists of words and phrases most frequently used for communication, keeping in mind the focus on teens and adults.

Each symbol was conceptualized by a team of individuals with varying backgrounds, including users of symbols. The symbols were created to be easily identifiable in any culture or language. Special techniques were employed, like shading an element of a drawing to elicit a word or using color to draw attention to the key word. If a user doesn't recognize an image, the teacher or therapist can teach the intended word. The symbols also use consistent elements to help users identify the intended vocabulary word. For example, the same icon is used in the symbols for a variety of community buildings. Symbols may be interchangeable or have multiple meanings; for example, in the emotion section, "excited" for one person might be "ecstatic" for another person.

Each symbol was reviewed by a testing panel that included therapists, teachers, and individuals with cognitive or other disabilities. These users were asked to identify the symbol without additional information and to suggest how to more clearly elicit the specific vocabulary word. When a symbol was not easily recognized by a majority of the panel, it was reconceptualized based on the feedback.

Imagine Symbols can be used in a wide variety of ways to assist those who need visual supports in their daily lives. The symbols are ideal for creating communication overlays, enhancing worksheets, and developing computer-generated presentations.

Imagine Symbol Directory and Imagine Symbol Finder

The Attainment Company is pleased to provide you with this Imagine Symbols Directory, which offers an overview of the symbols, categorized and indexed for easy selection. The **Imagine Symbol Finder** included on the DVD lets you quickly locate the symbols you have chosen. See the *User Guide* on the DVD for details on using the **Imagine Symbol Finder.**
